Connecting Nipples for Coupling Spirax-Monnier Compressed Air Units

Hexagon connecting nipples

Barrel connecting nipples

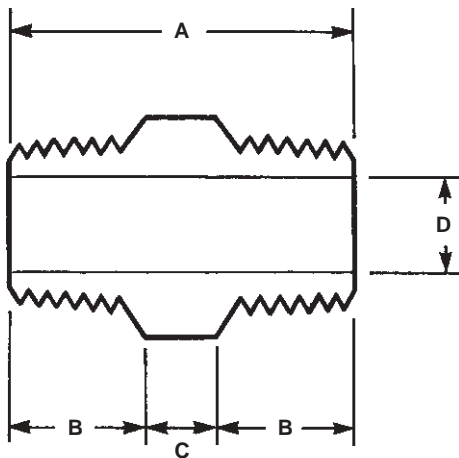

Description

Spirax-Monnier connecting nipples for coupling together two or more Spirax-Monnier compressed air units.

Principal features:

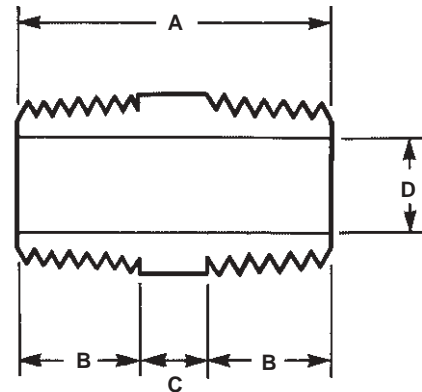

- Hexagon connecting nipples are screwed BSP (BS 21-R) to connect Standard or Miniature units.
- Barrel connecting nipples are screwed BSP (BS 21-R) to connect International units.
- Spirax-Monnier units can be supplied assembled.
