SPIRA-TROL Two-port Control Valves

EN Standard JE, JF and JL DN15 to DN200 and ASME Standard JEA, JFA and JLA 1/2" to 8"

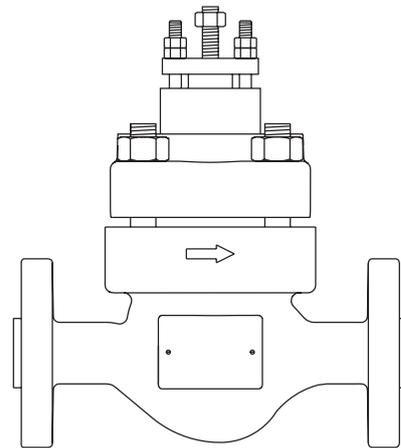

Description

SPIRA-TROL is a range of two-port single seat globe valves with cage retained seats conforming to EN and ASME standard. These valves are available in three body materials in sizes ranging from DN15 to DN200 (1/2" to 8"). When used in conjunction with a pneumatic or electric linear actuator they provide characterized modulating or on/off control.

SPIRA-TROL valve characteristic - options:

JE	Equal percentage (E) - Suitable for most modulating process control applications providing good control at all flowrates.
JF	Fast opening (F) - For on/off applications only.
JL	Linear (L) - Primarily for liquid flow control where the differential pressures across the valve is constant.

Important note: Throughout this document, reference has been made to the standard JE control valve. With the exception of trim type, the JE, JF and JL control valves are identical.

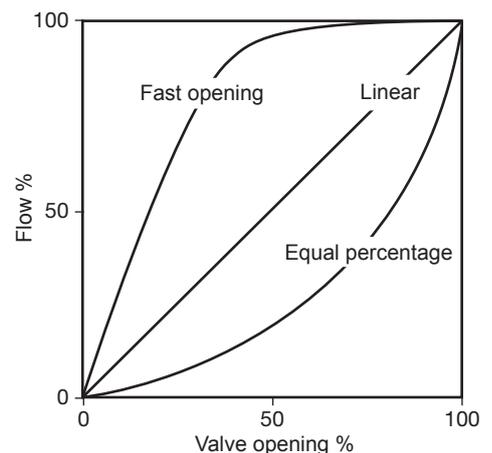

SPIRA-TROL valve options:

Stem sealing	PTFE chevron seals	Standard
	Graphite packing	High temperature applications
Seating	Metal-to-metal	431 stainless steel - standard 316L stainless steel
	Soft seating	Up to 200°C - PTFE for Class VI shut-off Up to 250°C - PEEK for Class VI shut-off
	Hard facing	316L stainless steel with Stellite 6 facing - for more arduous applications
Bonnet type	Standard bonnet	
	Extended bonnet	for large pipe lagging or hot / cold applications
Trim	Standard trim	
	Low noise cage	

Technical data

Plug design	Parabolic	
	Metal-to-metal	Class IV
Leakage	Soft seal	Balanced Class IV Unbalanced Class VI
Rangeability	50:1	
	DN15 to DN50	20 mm
Travel	DN65 to DN100	30 mm
	DN125 to DN200	70 mm

Typical flow characteristic curves

Standards

Designed in accordance with EN 60534. This product fully complies with the requirements of the European Pressure Equipment Directive 97 / 23 / EC and carries the CE mark when so required.

Certification

This product is available with certification to EN 10204 3.1. **Note:** All certification / inspection requirements must be stated at the time of order placement.

Sizes and pipe connections

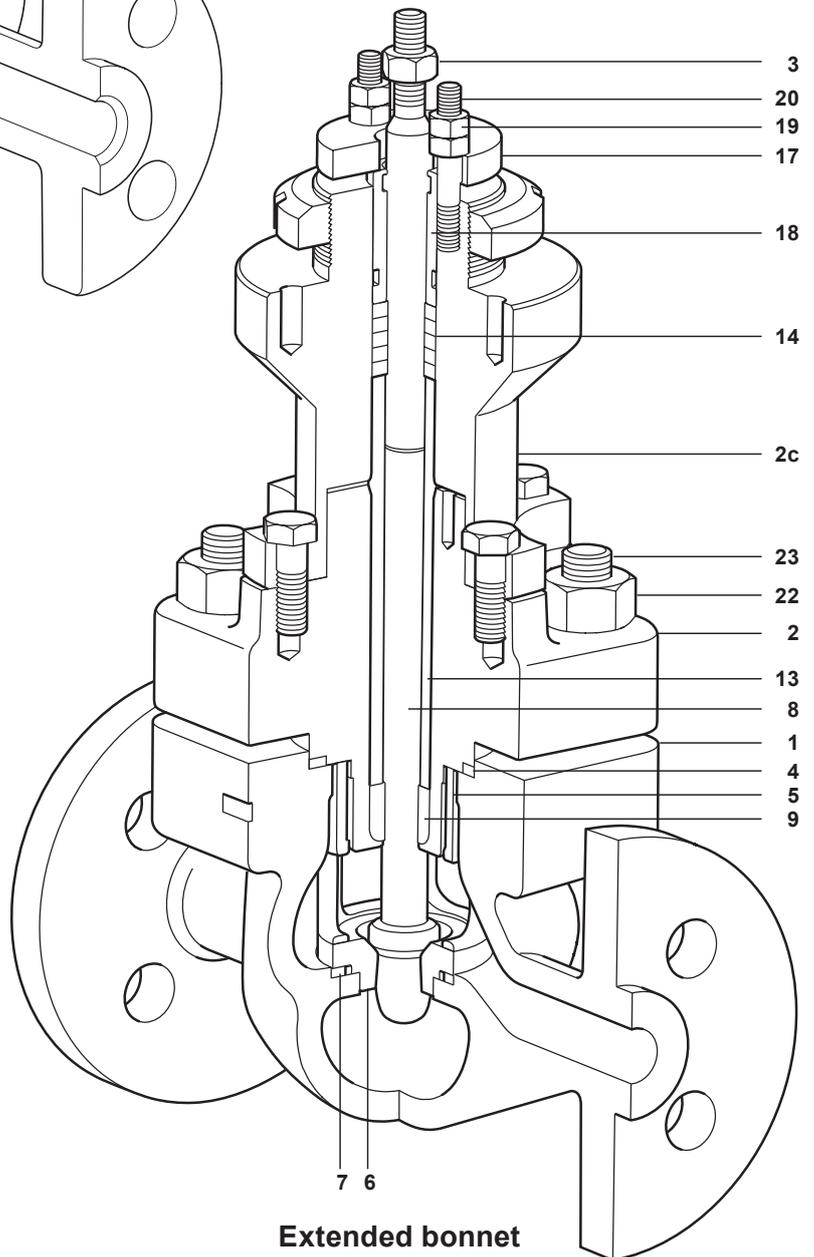

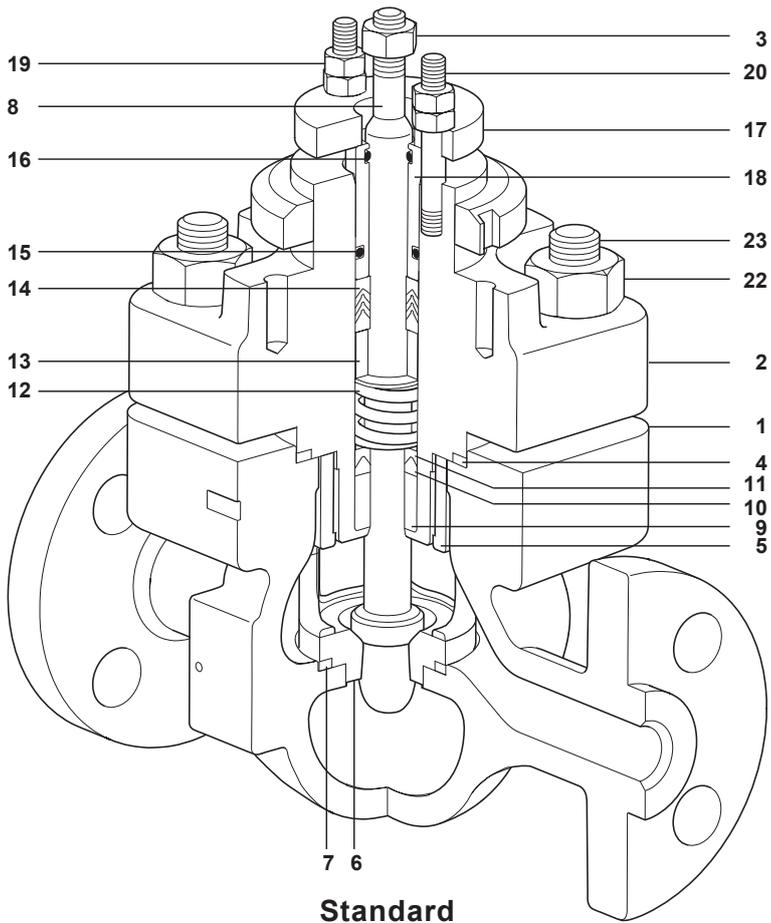

Standard	EN	JE, JF and JL	DN15, DN20, DN25, DN32, DN40, DN50, DN65, DN80, DN100, DN125, DN150 and DN200
	ASME	JEA, JFA and JLA	1/2", 3/4", 1", 1 1/4", 1 1/2", 2", 2 1/2", 3", 4", 5", 6" and 8"

Pressure/temperature limits - JE43 and JEA43

PN63
PN100

ASME 600

JIS / KS 30
JIS / KS 40

The product **must not** be used in this region.

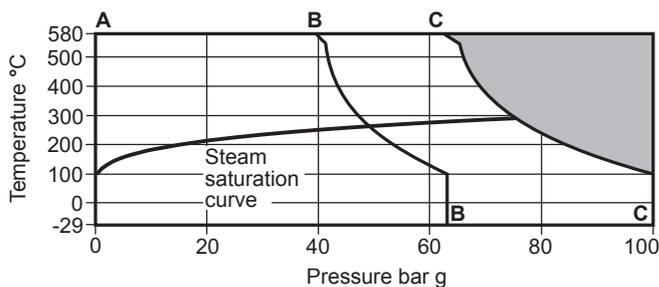

- A - B Flanged EN 1092 PN63
- A - C Flanged EN 1092 PN100
- A - D Flanged JIS / KS 30
- A - E Flanged JIS / KS 40
- A - F Flanged ASME 600

- Notes:**
- Where the process fluid temperature is sub-zero and the ambient temperature is below +5°C, the external moving parts of the valve and actuator must be heat traced to maintain normal operation.
 - When selecting a valve with a bellows sealed bonnet, the pressure/temperature limits of the bellows must be read in conjunction with the valve pressure/temperature limits shown below.

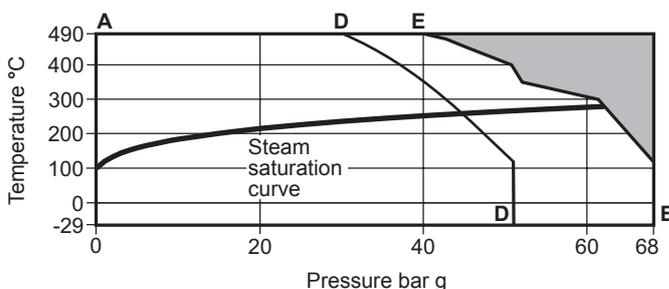

Body design conditions		PN100 / ASME Class 600	
PMA	Maximum allowable pressure	EN	PN63 JE43 63 bar g @ 50°C
		ASME 600	PN100 JE43 100 bar g @ 50°C
PMO	Maximum operating pressure	JIS / KS 30	JEA43 102.1 bar g @ 38°C
		JIS / KS 40	JEA43 51 bar g @ 120°C
TMA	Maximum allowable temperature	EN	JE43 400°C
		ASME 600	JEA43 425°C
		JIS / KS 30	JEA43 425°C
		JIS / KS 40	JEA43 425°C
Minimum allowable temperature		-29°C	
TMO	Maximum operating temperature (For clarification of the options G, H, K and P see the SPIRA-TROL selection guide on page 9)	Standard packing PTFE chevron (Stem sealing - Option P)	250°C
		High temperature packing (Stem sealing - Option H)	425°C
		Extended bonnet (E) with PTFE chevron	250°C
		Extended bonnet (E) with graphite packing	425°C
		PTFE soft seat (Seating - Option G)	200°C
		PEEK soft seat (Seating - Option K)	250°C
Minimum operating temperature		Note: For lower operating temperatures consult SpiraxSarco. -29°C	
Designed for a maximum cold hydraulic test pressure of:		156 bar g

Spare parts

SPIRA-TROL

The spare parts available are shown in solid outline. Parts drawn in broken line are not supplied as spares.

Note: When placing an order for spare parts please specify clearly the full product description as found on the label of the valve body, as this will ensure that the correct spare parts are supplied.

Available spares – JE and JEA

Actuator clamping nut		A
Gasket set		B, G
Stem seal kits	PTFE chevrons	C
	Graphite packing	C1
Plug stem and seat kit	Equal percentage trim (No gaskets supplied)	D, E
	Fast opening trim (No gaskets supplied)	D1, E
	Linear trim (No gaskets supplied)	D2, E

How to order spares

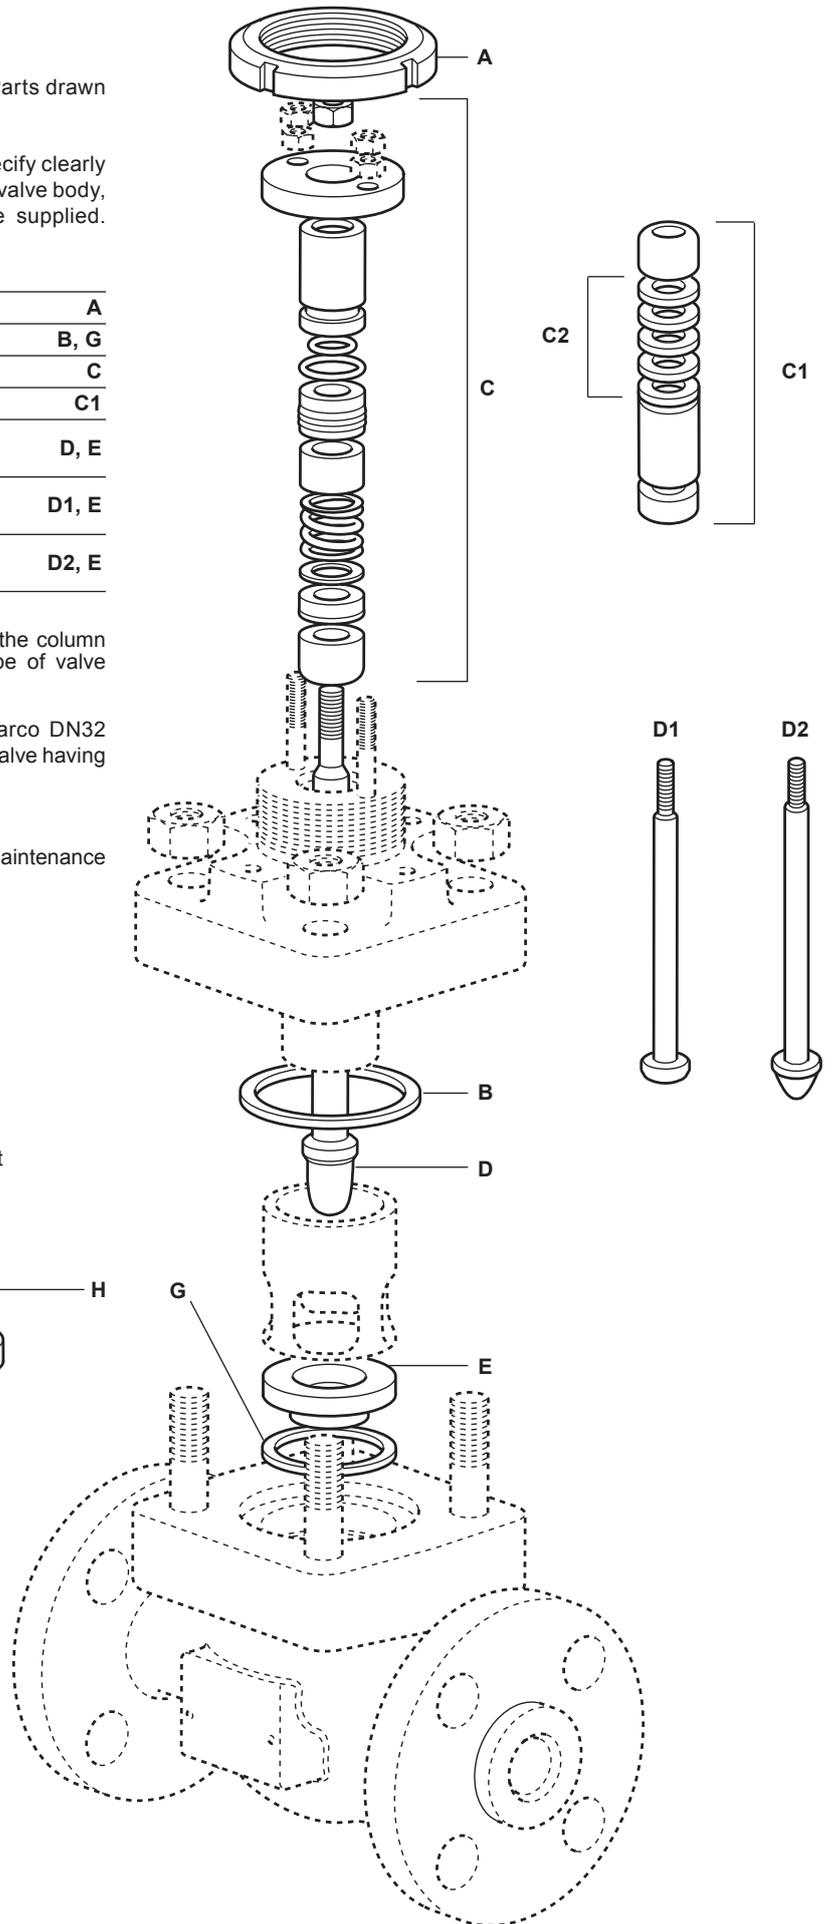

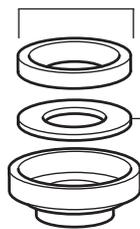

Always order spares by using the description given in the column headed 'Available spares', and state the size and type of valve including the full product description of the product.

Example: 1 - Plug stem and seat kit for a Spirax Sarco DN32 SPIRA-TROL JE43PTSUSS.2 K_{VS} 16 two-port control valve having flanged PN63 connections.

How to fit spares

Full fitting instructions are given in the Installation and Maintenance Instructions supplied with the spare.

Soft seat arrangement
